MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

INDUSTRIAL GAS INDUSTRY

According to the report "India Industrial Gases Market Forecast & Opportunities, 2018" the industrial gases market in the country is expected to grow at CAGR of 14% by 2018. India's market for tonnage plants as well as merchant or small sized plants is witnessing growth as a result of growth in industrial as well as commercial market. The commercial market is influenced by growth in light engineering industry as well as metal fabrication industry, being clustered in northern and western regions of the country. Similarly, industrial gases market is influenced by growth in steel and refineries sector, being concentrated in eastern and southern part of the country. Positive government policies to drive investments in iron and steel sector, coupled with estimated domestic demand of more than 110 Million Metric Tonnes is expected to drive capacity addition in steel industry. This is further expected to drive demand for tonnage plants, positively impacting overall industrial gases market in India. Apart from this, capacity addition in refineries are driving demand for nitrogen gases, which are solely used to improve efficiency in refineries for processing of crude oil as well as pressure and purging applications.

FUTURE OUTLOOK

The Company is expecting that Hindustan Copper Ltd (HCL) may restart smelter operation at Khetrinagar in the near future and accordingly the oxygen plant of the company will also restart.

Rapid urbanization, dwindling fresh water reserves, a widening demand-supply gap and a depleting groundwater table will keep the water treatment business thriving for a long time. An Ernst & Young (E&Y) study says the Indian water sector could require investment of around \$130 billion till Wastewater management, in particular, is emerging as a key thrust area. Water availability is a huge challenge for everyone today in industry, and decisions on industrial locations are now taking into account the availability of adequate water. Public awareness is also growing very fast with the Internet explosion as information flows across geographies in minutes.

The Indian water and wastewater market is growing at a steady rate of 10-12 percent every year. Government-related projects contribute over 50 percent of the revenues in this market while private sector funds constitute the rest of it.

With the growing rate of industrialization and urbanization India faces up with the major challenge of providing for the robust and clean water supplies for all domestic and commercial needs. Also, a conscious effort is on from Government in regards to reduce the pollution levels amongst country's fresh water river sources and better accommodate the guidelines and regulations for maintaining the clean sources of water.

The increasing government regulations and focus on water and water management such as the Swachh Bharat Mission, the Clean Ganga initiative, the National Rural Drinking Water Programme, along-with stricter enforcement of the environmental norms for polluted water discharge, reduced carbon footprint, waste water treatment and requirement of zero liquid discharge plants from various industries will also drive the demand for water and wastewater treatment solutions.

During the period under review, your company took the initiative to diversify its activities and decided to enter into the business of Waste water treatment through phyco remediation technology. Technical papers have been prepared and technical presentation has been conducted before various Government Departments including "Navami Ganga Authority". Your company is expecting to get good business in this area in the coming years.

HUMAN RESOURCES

Your company considers human resources a key element. The company has a competency based performance and potential appraisal systems for identifying and developing managerial talents and is reviewed on an ongoing basis. Emphasis is laid on providing adequate training to its employees, to meet the attitudinal and cultural values of the organization ethos to achieve customer satisfaction.

CORPORATE GOVERNANCE

The Company follows principle of effective Corporate Governance. The endeavor of the Company is not only to comply with regulatory requirements but also to practice Corporate Governance principles that lay emphasis on integrity, transparency and overall accountability. The Company adheres to most of the recommendations made by the SEBI and incorporated by the Stock Exchanges in the Standard Listing Agreement. However, due to paucity of funds and unavailability of qualified staff there was a delay in complying with the condition of Listing Agreement.

INTERNAL CONTROLS

The Company has adequate systems of internal control in place. This is to ensure that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are authorized, recorded, and reported correctly.

The internal control systems are supplemented by an extensive program of internal audits. The internal audit function is empowered to examine the adequacy, relevance and effectiveness of control systems, compliance with policies, plans and statutory requirements.

The top management and the Audit Committee of the Board review the findings and recommendations of the internal audit panel.

CAUTIONARY STATEMENT

The Management Discussion and Analysis Report contains some forward looking statements based upon the information and data available with the Company, assumptions with regard to global economic conditions, the government policies etc. The Company cannot guarantee the accuracy of assumptions and perceived performance of the Company in future. Hence it is cautioned that the actual results may differ from those expressed or implied in this report.
